

INTEGRATED CLEANROOM & LABORATORY SOLUTIONS

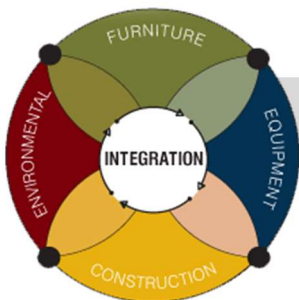

All Modular NAPRA Compliant Pharmacy Cleanrooms

Modular facility design consists of a multi-room configuration consisting of an anteroom for personnel gowning and activity preparations and clean processing rooms, one for sterile non-hazardous and one for sterile hazardous operations.

Typical scope includes all modular wall systems with glazing vision panels, integral electrical and data service chases, swing type doors with a range of hardware options, structural ceiling options with integrated LED type light fixtures and HEPA filtration modules, ISO CLASS 5 work stations, Containment exhausted work stations, stainless steel product pass thru chambers, anteroom sink wash station and stainless steel casework configurations.

Optional site services included: Packaged air handling systems complete with ventilation exhaust systems, electrical, plumbing services and preparation support laboratory.

Pre-engineered models are designed to meet industry standards and guidelines.
